KiCad E.D.A. 10.0.5	Id: 1/7	

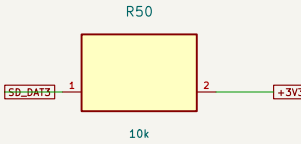

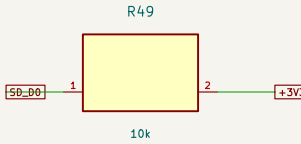

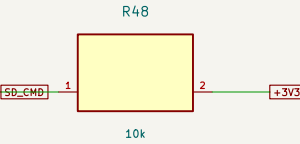

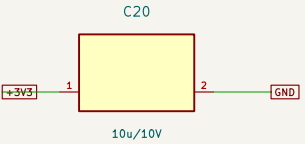

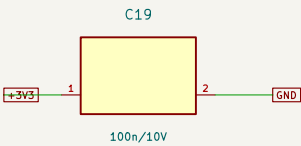

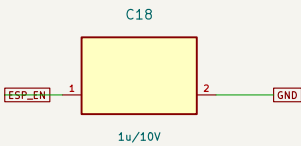

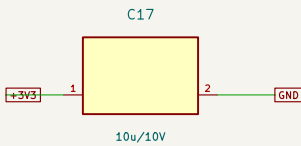

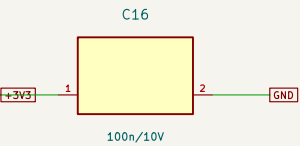

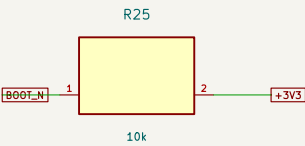

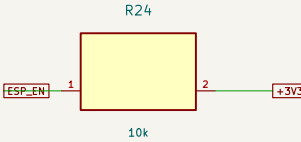

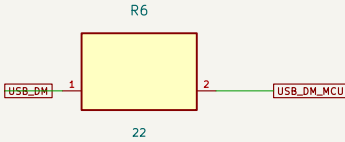

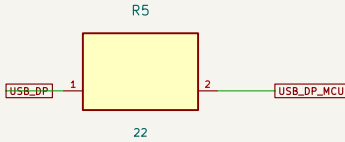

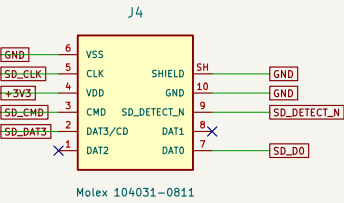

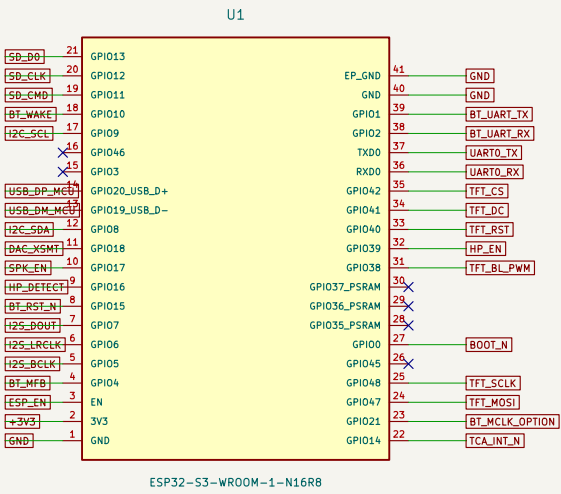

Power, charging and battery safety

AI-authored engineering reference. Verify plisout, support values, footprint orientation, lithium safety, RF keepout and assembly before fabrication.

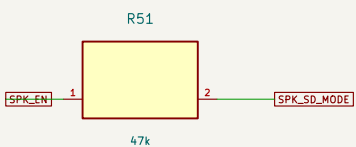

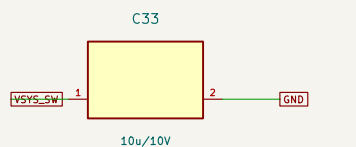

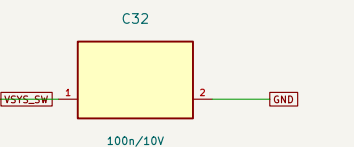

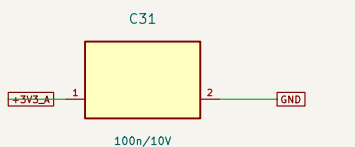

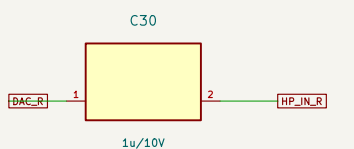

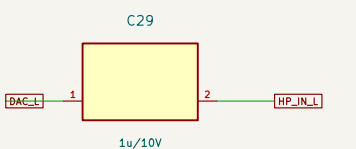

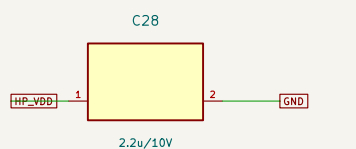

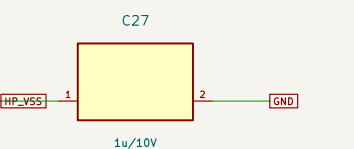

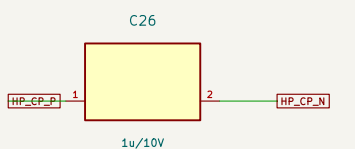

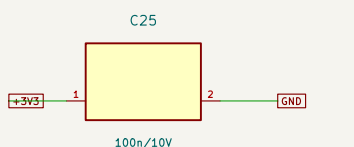

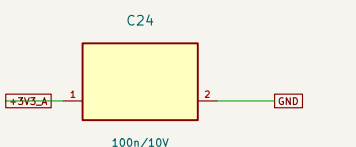

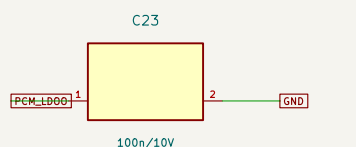

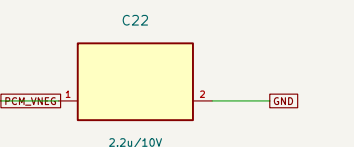

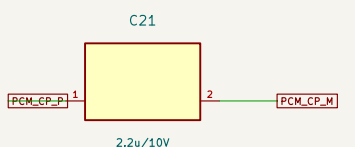

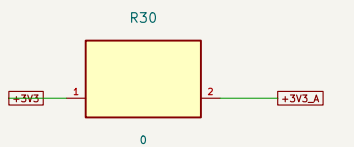

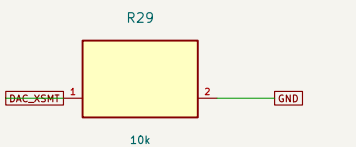

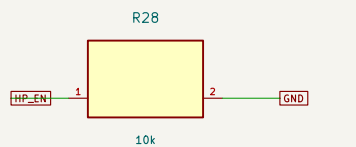

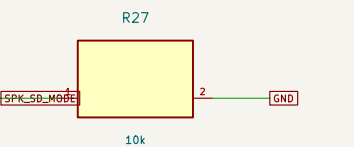

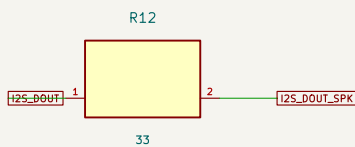

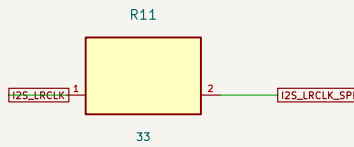

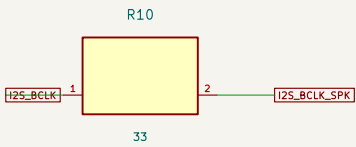

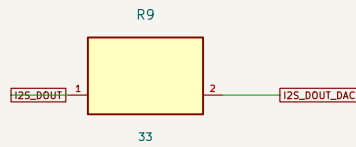

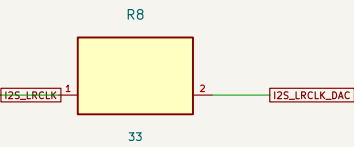

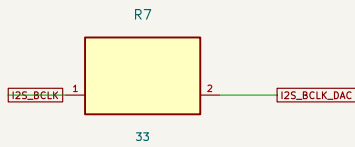

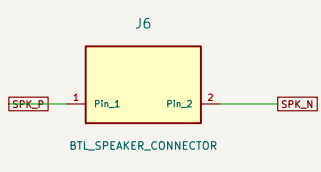

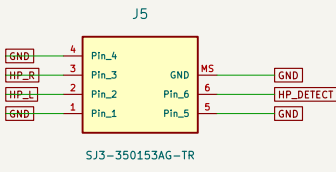

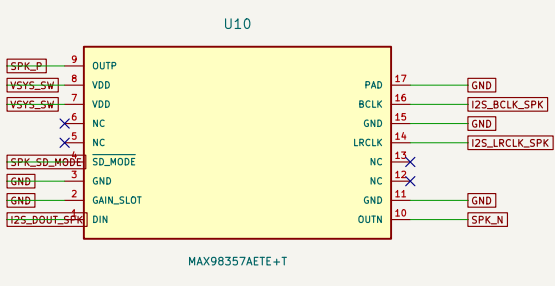

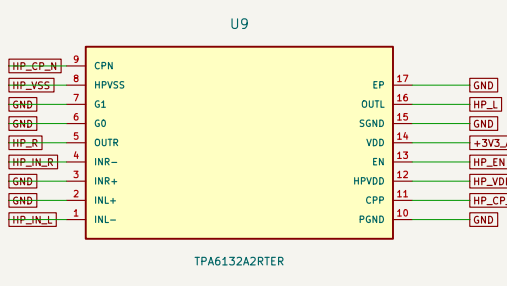

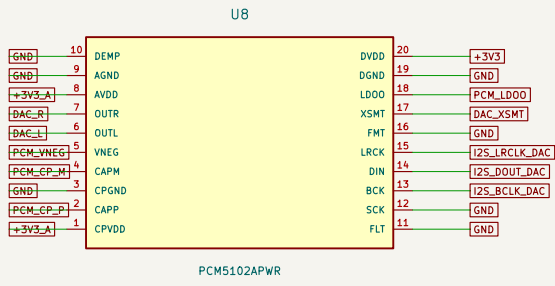

MCU, USB and microSD storage

AI-authored engineering reference. Verify pinout, support values, footprint orientation, lithium safety, RF keepout and assembly before fabrication.

I2S DAC, headphone and speaker audio

AI-authored engineering reference. Verify pinout, support values, footprint orientation, lithium safety, RF keepout and assembly before fabrication.

TFT display, input expander and buttons

AI-authored engineering reference. Verify pinout, support values, footprint orientation, lithium safety, RF keepout and assembly before fabrication.
