NIGHTWAVE AI—AUTHORED DIGITAL REFERENCE							

Complete source package for independent engineering review; unbuilt and not approved for fabrication or lithium connection.

Power, charging and battery safety

ERC source declarations: USB input, battery, return, and analog rail after R30. Not safety approval.

Power, charging and battery safety

AI-authored engineering reference. Verify pinout, support values, footprint orientation, libium safety, RF keepout and assembly before fabrication.

I2S DAC, headphone and speaker audio

AI-authored engineering reference. Verify pinout, support values, footprint orientation, lithium safety, RF keepout and assembly before fabrication.

TFT display, input expander and buttons

AI-authored engineering reference. Verify pinout, support values, footprint orientation, lithium safety, RF keepout and assembly before fabrication.
